## Safety Programs for Businesses

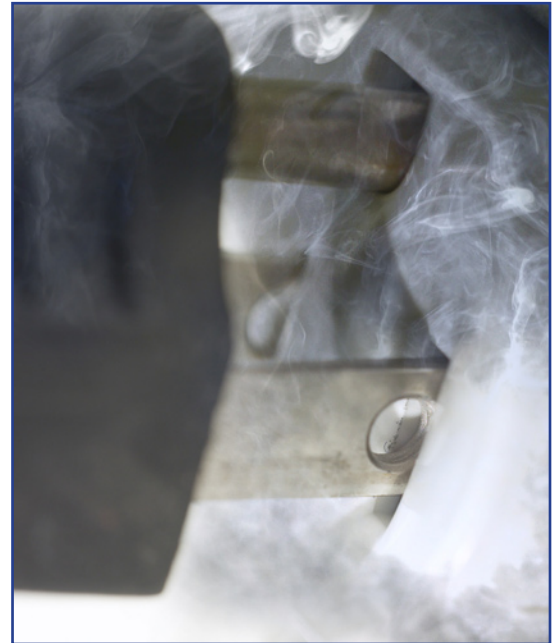

Each year, U.S. businesses lose billions of dollars to fire. Not to mention the loss of sales, lost production and possibly the loss of their business or even worse, the loss of a life.

Often times, fires are preventable. Overlooked items can result in disaster.

A small investment in fire prevention now could end up saving you a lot in the long run. The fire district offers services designed to help minimize your company's fire risk.

The Fire Prevention Staff is willing to assist in doing any Fire Safety Training for your company. It can range from extinguisher training (there is a reasonable fee for this training), fire safety in a business program and any assistance with Fire Code issues or problems.

Any questions, please feel free to contact the Fire Inspectors: Aaron Surratt at 763-354-7783 or Shelby Wolf at 763-354-7784.

***Simple overlooked items can sometimes cause big problems***
